

THE 'Fringe' event at Black Hat Europe 2026

8–9 December 2026,
Zero Sette Italian Restaurant & Bar, ExCeL

No exhibition stands | No presentations | No Black Hat pass

"I really enjoy CyberSync. I always derive tremendous value from it, not only in seeing fellow CISOs and comparing notes, but also in meeting new potential partners with new technologies."

Stuart Seymour,
Group CISO and CSO, Virgin Media O2
and Founder 2AM Club

AMIGOS
network

Networking and hospitality CISOs, CIOs
and senior Practitioners

Your invitation beyond Black Hat

You don't need to be attending Black Hat Europe to join CyberSync, you can make us the reason to get together.

The dynamic between our networks is what takes CyberSync to the next level. **2 AM Club** has specifically been created to offer the **next generation of CISOs and CIOs** access to those already in the role from a range of industries and areas of expertise.

Why join us?

- Meet peers facing similar challenges
- Exchange honest, practical perspectives
- Make useful new connections
- Spend time with your wider team
- Meet our sponsors who will share knowledge without pitches
- End the year with great food and good company

Choose how you join us

Tuesday 8 December:
Peer networking dinner 18:00–22:00

An invitation-only dinner hosted by CISOs and practitioners.

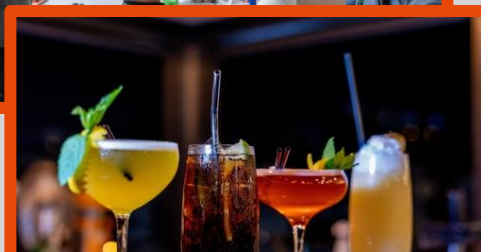

Enjoy relaxed table conversations, seasonal Italian dining and the chance to compare experiences with people who understand the realities of technology and security leadership.

Wednesday 9 December:
Peer event and Christmas social 14:00–22:00

Join us from 14:00 for **networking, CISO/CIO and practitioner-led discussions and podcasts.** From 17:00, bring your team for drinks, mixology and an informal pre-Christmas social.

Attend one day or both, but please register

Complimentary places are available for CISOs, CIOs and practitioners. Dinner places are especially limited.

This year during Infosec

CyberSync will host the first in-person meeting of the 2AM Club, a private peer community for CISOs, CIOs and senior practitioners. It provides a space to discuss what genuinely keeps technology leaders awake at night and help develop the talent around them.

CISO Crowd

CyberSync is already a firm favourite with CISO Crowd's independent community run by CISOs for CISOs, focused on trusted peer relationships, shared experience and professional development.

MYREDFORT
community

CyberSync is MYREDFORT's in person networking for its online community of more than 75,000 cybersecurity professionals across the UK and Ireland, EMEA and the US.

CONNECTED COMMUNITIES. TRUSTED RELATIONSHIPS
