LEVEL 05: OUR COMMITMENT

The Palo Alto Networks commitment to the mid-market

Solutions, services and support designed to scale with you.

Technology that pays quickly for itself.

Solutions designed for 200 to 700 seats.

Skilled Partner Ecosystem complements lean IT teams.

LEVEL 04: DON'T COMPROMISE

Enterprise-grade technology for mid-market businesses

Get premium benefits today, plus seamless upgrades as you grow. Enterprise-grade solutions can give you:

8x

faster investigations¹.

10x

faster performance².

25x

more security updates³.

50%

reduction in the likelihood of a data breach⁴.

LEVEL 03: SECURITY SIMPLIFIED

A solid security foundation

We're here to demystify cybersecurity for you with enterprise-grade protection.

Simplify your protection with a unified platform approach.

Block known and unknown attacks with powerful solutions.

Follow our playbooks for current and future growth.

LEVEL 02: THE RISKS

An enterprise-grade base for business operations

Modern business practices are increasing risk for mid-market businesses.

A mobile workforce and remote access.

Bring Your Own Device (BYOD) support.

Limited security manpower.

Distributed networks.

Virtualized or cloud infrastructure.

Addressing today's security challenges with individual tools may work, but managing so many tools can be difficult and inefficient.

LEVEL 01: THE FUNDAMENTALS

Secure your foundation to success

As a growing mid-market business, you are beginning to see enterprise-grade challenges. There's no better time to elevate your security strategy and ensure long-term success.

Palo Alto Networks can help you make sense of an increasingly complex security landscape. Don't compromise. Find out how you can build a solid security foundation with enterprise-grade technology using our mid-market solutions.
